Ground Level Play Requirements

Play areas are required to provide diversity in experiences at ground level for all participants. One of each type of play experience that exists in a play area must also be made accessible.

* For 26 or more Elevated Activities: 8 + (1 for each additional 3 over 25, or fraction thereof)

Play Area Accessibility Checklist

KEEP A COPY OF THIS FORM FOR YOUR RECORDS.

Play Areas for 2–5 year olds and 5–12 year olds, as well as geographically separated play areas, should be evaluated separately.

Accessible Ground Level Play Types Required See table and compare to total number of different ground level play types. The larger number is the number of ground level play types that must be accessible.

This form is intended to assist the evaluation of accessibility for outdoor play facilities. This form does not represent all factors required for an accessible play facility contained in the regulations, and therefore is not a guarantee, test, or confirmation of accessibility. Requirements for accessibility include appropriate accessible routes, maneuvering spaces and clear floor and ground spaces Play components must include appropriate transfer heights and/or be accessed by ramp where appropriate. Providing and maintaining accessibility is the responsibility of the Play Facility Owner.

ADA Evaluation

With the introduction of the Americans with Disabilities Act (ADA) in 1990 and the subsequent adoption of standards specific to play areas, accessibility has become an important issue to everyone.

Below is a chart evaluating the play area for your proposed playground. This evaluation assumes that proper resilient surfacing within the play site and an accessible route of travel to the play area and equipment are a part of this proposal package. Also, that no other play equipment is in the site.

This play area meets current ADA requirements.

Play Area for 2-5 Year Olds
